

UB521M BI-LATERAL UPPER BODY ERGOMETER

SportsArt is an industry leader in rehabilitative equipment manufacturing and the UB521M Bi-lateral Upper Body Ergometer is a therapist's favorite modality for seated, standing or users needing wheelchair access.

- Bi-directional resistance for varied exercise and therapy sessions.
- Hand crank position rotates 180° for opposing or unison arm motion (optional function).
- Roll away seat carriage for wheelchair patients and optional wheelchair platform.
- Adjustable ROM radius with 4 settings at 6.5", 7.5" 8.5" and 9.5".
- Belt drive offers quiet, smooth operation with seamless transition between forward and reverse motion.
- Tilting console and pivoting display offer customized fit for most users in seated or standing position

USER WEIGHT

500 lbs / 227 kg

DIMENSIONS
