THE GREEN FITNESS COMPANY

STATUS SERIES STRENGTH
SELECTORIZED | PLATE LOADED

SELECTORIZED STATUS SERIES

The Status Series selectorized premium strength line combines a sleek, modern design with world-class components and our dependable, industrial-quality manufacturing to bring you the whole package in every machine. Each machine is built to last in the most demanding commercial environments, with heavy gauge steel oval tubing, Kevlar-reinforced belts, internally lubricated cables with deep-channel pulleys and sealed bearings. Gas-assisted seat adjustments and contoured cushions ensure comfort and ease of use. Independent movement and biomechanically correct design accommodate users of any fitness or experience level, delivering measurable, targeted results in the shortest amount of time possible.

Magnetized weight selector fork instantly locks into place and delivers more stability than selector pin alternatives.

Contoured and molded seat pads with marine grade tear-resistant upholstery provide comfort and ergonomic support.

Unilateral movements and converging/diverging motion paths follow biomechanical principles and allow for training variability, progression, and balance training.

Incremental weight stack allows users to adjust their resistance level by smaller amounts.

Gas-assisted seat adjustments allow users to quickly and easily change the height and angle of the seat without having to get off the machine.

Kevlar belts provide a safe, smooth feel and eliminate drag for quieter operation.

Specially designed cams follow an appropriate strength curve to match load and joint position—providing a more efficient workout.

Range limiting devices allow for the perfect unit setup—ideal for rehabilitation or sport-specific training.

N911 ASSISTED CHIN DIP

- Adjustable and versatile multi-function handles for training in any style that works muscle groups from all angles
- Knee pad folds up and out of the way for unassisted training
- Dip bars and straight pull-up bars fold out of the way for greater accessibility
- Non-slip steps for easy access

N915 INDEPENDENT CHEST PRESS

- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- Multi-position hand grips allow users to train muscles from multiple angles with proper hand positioning
- Gas-assisted seat adjustment
- Pre-ROM foot bar assists in starting or stopping movement like a spotter

N912 BICEP CURL

- Pivot point indicator aids user in achieving optimal elbow joint alignment
- Gas-assisted seat adjustment
- Weight selection easily adjusted from seated position
- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups.
- Marine grade double-stitched upholstery
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N916 INDEPENDENT LAT PULLDOWN

- Pivoting flex handles reduce joint stress and help prevent injury
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- Unilateral movements allow for training variability, progression, and balanced strengthening
- Gas-assisted seat adjustment and adjustable thigh pads accommodate users of different sizes
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- 2:1 ratio (1 hand) and 1:1 ratio (2 hands)

N917 INDEPENDENT SHOULDER PRESS

- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- Pivot point indicators for proper joint alignment
- Handles rotate naturally throughout the motion and reduce wrist stress
- Unilateral movements allow for training variability, progression, and balanced strengthening
- Incremental 3.3 and 6.6 lb (1.5 and 3 kg) micro-loading adjustment

N919 INDEPENDENT LATERAL RAISE

- Handles rotate naturally throughout the motion and reduce wrist stress
- Gas-assisted seat adjustment puts you in the proper position
- Foot rest improves exercise stability
- Stabilizer pads ensure the exerciser's body is held in a comfortable position and is able to focus on activating target muscle groups
- Unilateral movements allow for training variability, progression, and balanced strengthening
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N918 LOW ROW

- Curved bar provides an ergonomic grip
- Weight stack position enables weight adjustment while seated
- Non-skid footplates
- Comfortable cushion suits exercisers of various sizes

N921 INDEPENDENT MID ROW

- Pivoting flex handles reduce wrist stress and help prevent injury
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- Gas-assisted seat adjustment fits users of different sizes
- Stabilizer pads ensure the exerciser's body is held in a comfortable position and is able to focus on activating target muscle groups
- Unilateral movements allow for training variability, progression, and balanced strengthening

N922 INDEPENDENT PEC FLY/REAR DELT

- Unilateral movements allow for training variability, progression, and balanced strengthening
- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Dual function facilitates pec fly/rear delt workouts
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N925 TRICEP EXTENSION

- Pivoting flex handles reduce wrist stress and help prevent injury
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Gas-assisted seat adjustment and adjustable thigh pads accommodate users of different sizes
- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout

N923 PULLOVER

- Handles naturally rotate through the range of motion
- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific training
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N926 LAT PULLDOWN

- Ergonomically curved bar provides wide or narrow grip options
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Weight stack placement allows for easy load adjustment while seated
- Marine grade double-stitched upholstery
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N933 INDEPENDENT PEC DECK

- Unilateral movements allow for training variability, progression, and balanced strengthening
- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Gas-assisted seat adjustment fits users of different sizes
- Foot rest improves exercise stability
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

CORE

N931 ABDOMINAL CRUNCH

- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Converging upper and lower body action engages more core muscles in one natural movement
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N932 BACK EXTENSION

- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Weight selection easily adjusted from seated position
- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific training
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N935 ROTARY TORSO

- Preload adjustment allows easy on/off access
- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific training
- Lower body rotates to isolate core and hip motion
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

LOWER BODY

N951 ABDUCTION

- Seat positioned for privacy
- Centralized weight stack is positioned for easy weight selection while seated
- Adjustable start point for comfort and safety
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N952 ADDUCTION

- Seat positioned for privacy
- Centralized weight stack is positioned for easy weight selection while seated
- Adjustable start point for comfort and safety
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

LOWER BODY

N955 GLUTE

- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Easy access design allows quick and safe use
- Non-slip foot pad for safety
- Secure, ergonomic handle grips
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N957 LEG EXTENSION

- Spring-assisted seat back adjustment supports users of different sizes
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific training
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

N956 HORIZONTAL LEG PRESS

- Performs as leg press, hack squat and calf extension
- Seat back has a recline range of 90-180° with a smooth fingertip adjustment lever
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Spacious seat carriage moves smoothly via SportsArt’s linear bearing system

N958 PRONE LEG CURL

- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific trainingt
- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lbs (1.5 and 3 kg) micro-loading adjustment

LOWER BODY

N959 LEG CURL

- Specially designed cams follow an appropriate strength curve to match load and joint position – providing a more efficient workout
- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific training
- Stabilizer pads ensure the exerciser’s body is held in a comfortable position and is able to focus on activating target muscle groups
- Incremental 3.3 and 6.6 lb (1.5 and 3 kg) micro-loading adjustment

N961 TOTAL HIP

- Adjustable leg pad accommodates different leg lengths, allowing users to achieve proper leverage
- Range limiting devices allow for the perfect unit setup – ideal for rehabilitation or sport-specific training
- Incremental 3.3 and 6.6 lb (1.5 and 3 kg) micro-loading adjustment

FUNCTIONAL TRAINING

N971 CABLE CROSSOVER

- Dual swivel pulleys adjust vertically and lock into place, allowing for functional training from virtually any angle
- 36 holes at 1.5 in apart allow for finer increments and more versatility
- Multi-grip pull-up/chin-up bars
- Easy-grip bars stabilize during balance-challenging workouts
- Ratio of 4:1 (one hand) and 2:1 (two hands) provides training versatility

N973 CABLE TOWER

- Dual swivel pulleys adjust vertically and lock into place allowing for functional training from virtually any angle
- 36 holes at 1.5 in apart allow for finer increments and more versatility
- Easy-grip bars stabilize during balance challenging workouts
- Ratio of 4:1 (one hand) and 2:1 (two hands) provides training versatility

DS972 FUNCTIONAL TRAINER

- Adjustable 2:1 and 4:1 pulley ratios
- Dual weight stack
- Integrated pull-up bar
- 41 pulley positions offer more workout positions and versatility
- Magnetized weight selector fork with retracting cord
- 7-piece accessory set included: 2 Multi-D ring handles, Straight bar, Curved bar, Sports handle, Triceps rope, Ankle strap

PLATE LOADED SERIES

The Plate Loaded series by SportsArt is designed to accommodate users of any fitness or experience level and deliver measurable and targeted results. By combining key ergonomic factors, such as independent movement arms, diverging/converging motion paths, and adjustable seats, chest pads, and backrests, we are able to provide a functional unit that is not only built to last but built to meet the workout needs of its users.

Contoured and molded seat pads with marine grade tear-resistant upholstery provide comfort and ergonomic support

Unilateral movements and converging/diverging motion paths follow biomechanical principles and allow for training variability, progression, and balance training

Easy adjustment points to fit various users

Durable, welded steel frame units

On unit plate storage

A975 REAR KICK

- Adjustable chest pad
- Proper strength curve to achieve maximal results
- Hand grips to provide stability
- Non-slip footplate
- On unit weight horns for ample plate storage

A978 WIDE CHEST PRESS

- Adjustable hand grips
- Adjustable seat height
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- On unit weight horns for ample plate storage
- Angled, adjustable hand grips reduce stress and accommodate all users
- Ergonomically angled seat back
- Unilateral movements allow for training variability, progression, and balanced strengthening

A976 LEG EXTENSION

- Adjustable seat back
- Unilateral movements allow for training variability, progression, and balanced strengthening
- On unit weight horns for ample plate storage
- Hand grips provide stability

A979 LOW ROW

- Adjustable seat height
- Adjustable chest pad
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- On unit weight horns for ample plate storage
- Multi-position grip for training variability
- Unilateral movements allow for training variability, progression, and balanced strengthening

A977 INCLINE CHEST PRESS

- Adjustable seat height
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- On unit weight horns for ample plate storage
- Multi-position grip
- Unilateral movements allow for training variability, progression, and balanced strengthening

PLATE LOADED

A981 SEATED CALF RAISE

- Designed to train the calf muscles (soleus and gastrocnemius)
- Adjustable thigh pad restraint to accommodate various exercisers

A985 CHEST PRESS

- Adjustable seat back to train different chest muscles
- Adjustable seat height
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- On unit weight horns for ample plate storage
- Unilateral movements allow for training variability, progression, and balanced strengthening

A982 ANGLED LEG PRESS

- 3 position adjustable back rest
- 2 position adjustable foot plate
- Large non-slip foot plate
- On unit weight horns for ample plate storage

A986 LAT PULLDOWN

- Adjustable seat height and thigh pad provides comfort and support
- Unilateral movements allow for training variability, progression, and balanced strengthening
- Naturally pivoting handles for improved comfort and mechanics
- On unit weight horns for ample plate storage

A983 SMITH MACHINE

- Welded steel frame
- Deep grooved pulleys for smooth cable tracking
- Chrome Olympic bar and plate racks
- On unit weight horns for ample plate storage
- Counter-weighted bar provides extremely low starting weight

A987 SHOULDER PRESS

- Adjustable seat height
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- On unit weight horns for ample plate storage
- Multi-position grip
- Wide frame ensures unit stability
- Unilateral movements allow for training variability, progression, and balanced strengthening

A988 MID ROW

- Adjustable chest pad
- Adjustable seat height
- Converging and diverging motion paths follow correct biomechanics for improved training efficiency and muscle activation
- Unilateral movements allow for training variability, progression, and balanced strengthening

A989 HACK SQUAT

- Adjustable back rest height
- Easy release safety leaver
- Large foot plate
- Thick shoulder pads
- On unit weight horns for ample plate storage
- Multi-point starting point to fit users of different sizes
- Low-friction system provides smooth operation

PLATE LOADED

COLOR CUSTOMIZATION

The Selectorized Strength line comes standard with copper side panels but each product can be tailored to fit your facility’s color needs with the following five color options.

**Speak to your sales representative for cost and lead time information.*

BLUE PANTONE 287C

CHARCOAL PANTONE 433C

RED PANTONE 185C

SILVER PANTONE 877C

YELLOW PANTONE 123C

FRAME COLORS

SportsArt strength equipment is coated with durable, metal-flecked powder coat which is furnace baked, then covered in a high quality clear coat, resulting in a durable finish that resists scratches, aging, and discoloration from oil or disinfectants.

SportsArt strives to offer a wide array of options and our all frame colors allow facility operators the ability to customize and match a multitude of frame colors with upholstery options. Contact your authorized SportsArt distributor today for more information.

Graphite (standard)
